

SECTION 01: PRODUCT AND COMPANY IDENTIFICATION

Product name: Sodium Tetraborate
Formula: $\text{Na}_2\text{B}_4\text{O}_7$
Chemical family: Borates
Synonyms: Sodium diborate, sodium pyroborate, boron sodium oxide, fused borax
Product use: For laboratory use only

Manufacturer: © CLAISSSE
Address: 350, FRANQUET, QUEBEC, QUEBEC
G1P 4P3, CANADA
Phone: 1 418 656-6453
Fax: 1 418 656-1169

Emergency telephone number:
CANUTEC: +1 613 996-6666

SECTION 02: HAZARDS IDENTIFICATION**Emergency overview**

Target organs: Central nervous system, kidney, testes.

WHMIS classification

Not regulated.

HMIS classification

Health hazard: 2
Chronic health hazard: *
Flammability: 0
Physical hazards: 0

Potential health effects

Inhalation: May be harmful if inhaled. Causes respiratory tract irritation.
Skin: May be harmful if absorbed through skin. Causes skin irritation.
Eyes: Causes eye irritation.
Ingestion: May be harmful if swallowed.

GHS and (EC) No 1272/2008 classification

Skin irritation (Category 2)
Eye irritation (Category 2A)
Specific target organ toxicity – single exposure (Category 3)

Hazard statements:

H315 Causes skin irritation.
H319 Causes serious eye irritation.
H335 May cause respiratory irritation.
H360 May damage fertility or the unborn child

Precautionary statements:

- P201 Obtain special instructions before use
 P261 Avoid breathing dust/fume/gas/mist/vapours/spray.
 P264 Wash thoroughly after handling.
 P271 Use only outdoors or in a well-ventilated area.
 P280 Wear protective gloves / protective clothing / eye protection / face protection.
 P302+P352 IF ON SKIN: Wash with plenty of soap and water.
 P304+P340 IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.
 P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing.
 P308+P313 IF exposed or concerned: Get medical advice/attention

Label elements:
Pictograms:

Signal word: Danger (GHS08)

Other hazards

Results of PBT and vPvB assessment

- PBT: Not applicable.
 vPvB: Not applicable.

SECTION 03: COMPONENT INFORMATION

Compound	Molecular formula	Molecular Weight (g/mol)	CAS-No.	EC-No.	Index-No.	Concentration (%)
Sodium Tetraborate	Na ₂ B ₄ O ₇	201.22	1330-43-4	215-540-4	005-011-00-4	100.0

SECTION 04: FIRST AID MEASURES**Description of first aid measures****General information**

Seek immediate medical advice.
Take affected persons out of danger area and lay down.

After inhalation

In case of unconsciousness place patient stably in side position for transportation.
Supply fresh air. If required, provide artificial respiration. Keep patient warm. If symptoms persist, consult a physician.

After skin contact

Immediately wash with water and soap and rinse thoroughly. If skin irritation persists, consult a physician.

After eye contact

Rinse opened eye for several minutes under running water. If symptoms persist, consult a physician.

After swallowing

Rinse out mouth and then drink plenty of water. If symptoms persist, consult a physician.

Most important symptoms and effects, both acute and delayed

No data available.

Indication of any immediate medical attention and special treatment needed

No data available.

SECTION 05: FIREFIGHTING MEASURES**Conditions of flammability**

Not flammable or combustible.

Suitable extinguishing media

Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

Special protective equipment for fire fighters

Wear self-contained breathing apparatus for firefighting if necessary.

Hazardous combustion products

Hazardous decomposition products formed under fire conditions: borate/boron oxide, sodium oxide.

Explosion data – sensitivity to mechanical impact

No data available.

Explosion data – sensitivity to static discharge

No data available.

SECTION 06: ACCIDENTAL RELEASE MEASURES**Personal precautions**

Use personal protective equipment. Avoid dust formation. Avoid breathing dust, vapours, fumes or gas. Ensure adequate ventilation. Evacuate personnel to safe areas.

Environmental precautions

Avoid dispersal of spilled material, runoff and contact with soil waterways, drains and sewers.

Methods and materials for containment and cleaning up

Pick up and arrange disposal without creating dust. Sweep up and shovel. Keep in suitable, closed and non-leaking containers for local chemical disposal.

Reference to other sections

See Section 7 for information on safe handling.

See Section 8 for information on personal protective equipment.

See Section 13 for disposal information.

SECTION 07: HANDLING AND STORAGE**Precautions for safe handling**

Provide suction extractors if dust is formed.

Do not inhale dust, smoke or mist.

Avoid contact with the eyes and skin.

Prevent formation of dust.

Prevent formation of aerosols.

Conditions for safe storage, including any incompatibilities

Requirements to be met by storerooms and receptacles: separate from strong oxidants, store in a well-closed container and in a dry place.

Information about storage in one common storage facility: not required.

Further information about storage conditions: keep container tightly sealed; store receptacle in a well-ventilated area; store in dry conditions.

Specific end use(s)

No data available.

SECTION 08: EXPOSURE CONTROLS/PERSONAL PROTECTION**Control parameters**

TLV (according to ACGIH, 1994-1995): 1 mg/m³ as TWA

TLV (according to ICSC): 2 mg/m³ as TWA; 6 mg/m³ as STEL

Personal protective equipment**General protective and hygienic measures**

Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at the end of work shifts. Avoid contact with the eyes and skin.

Respiratory protection

For nuisance exposure, use type N100 (US) or type P2 (EU EN 143) particle respirator. For higher level protection, use type OV/AG/P99 (US) or type ABEK-P2 (EU EN 143) respirator cartridges. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

Hand protection

Handle with gloves. The glove material has to be impermeable and resistant to the product, the substance or preparation. Selection of the glove material must be made considering the penetration times, rates of diffusion and degradation. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.

Protective gloves

Eye protection

Wear safety glasses with side shields conforming to EN 166. Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166 (EU).

Safety glasses with side shields (EN 166)

Skin and body protection

Wear impervious clothing. The type of protective equipment must be selected according to the concentration and amount of dangerous substance at the specific workplace.

Hygiene measures

Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday.

Specific engineering controls

Use mechanical exhaust or laboratory fume hood to avoid exposure.

SECTION 09: PHYSICAL AND CHEMICAL PROPERTIES
Appearance

Form:	Powder
Colour:	White

Safety data

pH:	No data available
Melting point:	741°C / 1366°F
Boiling point:	1575°C / 2867°C
Flash point:	No data available
Ignition point:	No data available
Autoignition point:	No data available
Lower explosion limit:	No data available
Upper explosion limit:	No data available
Vapour pressure:	No data available
Relative density:	1.4 g/cm ³
Water solubility:	25.6 g/L at 20°C
Partition coefficient n-octanol/water:	No data available
Relative vapour density:	No data available
Odour:	No data available
Odour threshold:	No data available
Evaporation rate:	No data available

SECTION 10: STABILITY AND REACTIVITY

Reactivity

No data available.

Chemical stability

Stable under recommended storage conditions.

Possibility of hazardous reactions

No dangerous reactions known.

Conditions to avoid

Moisture, presence of strong oxidant(s).

Incompatible materials

No data available.

Hazardous decomposition products

Hazardous decomposition products formed under fire conditions: borate/boron oxides, lithium oxides.

SECTION 11: TOXICOLOGICAL INFORMATION

Acute toxicity

Compound	Oral LD50	Inhalation LC50	Dermal LD50	Other
Sodium Tetraborate	2400-2600 mg/kg (rat)	No data	>2000 mg/kg (rabbit)	No data

Skin corrosion/irritation

No data available.

Serious eye damage/eye irritation

No data available.

Respiratory or skin sensitization

No data available.

Germ cell mutagenicity (in vitro) – gene mutation

No data available.

Germ cell mutagenicity (in vivo) – DNA damage and/or repair

No data available.

Carcinogenicity

IARC: No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

ACGIH: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH.

Reproductive toxicity

Reproductive toxicity - rat - oral

Paternal effects on testes, epididymis, sperm duct, prostate, seminal vesicle, Cowper's gland, accessory glands.

Presumed human reproductive toxicant

Teratogenicity

No data available.

Specific target organ toxicity – single exposure (Globally Harmonized System)

Inhalation – may cause respiratory irritation.

Specific target organ toxicity – repeated exposure (Globally Harmonized System)

No data available.

Aspiration hazard

No data available.

Potential health effects

Inhalation: May be harmful if inhaled. Causes respiratory tract irritation.

Ingestion: May be harmful if swallowed.

Skin: May be harmful if absorbed through skin. Causes skin irritation.

Eyes: Causes eye irritation.

Signs and symptoms of exposure

Toxicity reported for borates in humans: ingestion or absorption may cause nausea, vomiting, diarrhea, abdominal cramps, and erythematous lesions on the skin and mucous membranes. Other symptoms include circulatory collapse, tachycardia, cyanosis, delirium, convulsions and coma. Death has been reported to occur in infants from less than 5 grams and in adults from 5 to 20 grams.

This substance irritates the eyes, the skin and the respiratory tract. The substance may cause effects on the central nervous system, kidneys and gastrointestinal tract by ingestion at high dose or through damaged skin. Repeated or prolonged contact with skin may cause dermatitis. The substance may have effects on the respiratory tract.

Synergistic effects

No data available.

Additional information

Compound	RTECS
Sodium Tetraborate	ED4588000

SECTION 12: ECOLOGICAL INFORMATION
Toxicity

Toxicity to fish LC50 - other fish - 74 mg/L - 96 h

Persistence and degradability

No data available.

Bioaccumulative potential

No data available.

Mobility in soil

Water hazard class 1 (German regulation, self-assessment): slightly hazardous for water. Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

PBT and vPvB assessment

No data available.

Other adverse effects

Will affect drinking water supplies. The product components are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have harmful or damaging effects on the environment.

SECTION 13: DISPOSAL CONSIDERATIONS**Product disposal**

The generation of waste should be avoided or minimized wherever possible. Avoid dispersal of spilled material, runoff and contact with soil, waterways, drains and sewers. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional and local authority requirements. Contact a licensed professional waste disposal service to dispose of this material.

Contaminated packaging disposal

Dispose as an unused product.

SECTION 14: TRANSPORT INFORMATION**UN number**

ADR, ADN, IMDG, IATA Not applicable

UN Proper shipping name

Not applicable

Transport hazard class(es)

ADR, ADN, IMDG, IATA Not applicable

Packing group

ADR/IMDG/IATA Not applicable

Environmental hazards

Environmentally hazardous substance/marine pollutant: No

Special precaution for user

Not applicable

Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code

Not applicable

SECTION 15: REGULATORY INFORMATION**Safety, health and environmental regulations/legislation specific for the substance or mixture**

This safety data sheet complies with the requirements of regulation (EC) No. 1907/2006.

Chemical safety assessment

A chemical safety assessment has not been carried out.

DSL status

All components of this product are on the Canadian DSL list.

WHMIS

Not regulated.

This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations and the MSDS contains all the information required by the Controlled Products Regulation.

SECTION 16: OTHER INFORMATION**Date of issue**

2012/11/14

Notice to the reader

To the best of our knowledge, the information contained herein is accurate. However, neither the above named supplier nor any of its subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the only responsibility of the user. All materials may present unknown hazards and should be used with caution. Although certain hazards are described herein, we cannot guarantee that these are the only.
